Sharia Canada: Ryerson University cancels speech by “moderate” Tarek Fatah, refuses to explain why

Fatah speculates that Ryerson cancelled the CIF event because of pressure from various groups who would protest his speech, such as AntiFa Toronto or the school’s Muslim Students’ Association. Freedom of speech issues are taking a drubbing on many North American campuses, with scheduled speakers getting cancelled more frequently, often due to threats of violence from groups who present themselves as occupying the high moral ground.

They Paved Canada and Put Up a Parking Lot

Trudeau promised real change, the same vague promise made by then-candidate President Obama in 2008. To reflect his multiculturalism, Trudeau chose a cabinet of thirty, based not on competence, but on gender, ethnicity, and disabilities, yet there appears to be not one observant Jew among them to handle the antisemitism in schools and media and to represent the one percent Jewish population most *victimized by hate crimes* in an increasingly dangerous Canada. He pledged to legalize

recreational marijuana, and to change the electoral system, except that he finds this to be unnecessary now that the very process got him elected.

If Trudeau is the free world's last hope, the free world is doomed by Terry Glavin

If Justin Trudeau is the free world's best hope, then the free world is doomed. On a scale that exceeds anything since the darkest moments of the Cold War era, a belligerent authoritarian internationalism is corrupting the world's democracies and undermining the institutions of freedom and the rule of law from Hong Kong to Hungary and from Washington to Warsaw. It is a state of affairs that may not yet require any defiant Churchillian oratory of the "let it end only when each one of us lies choking in his own blood upon the ground" variety.

COMMENTARY: A letter to Prime Minister Justin Trudeau

You do remember, Mr. Prime Minister, that Robert Hall and John Ridsdel were kidnapped, tortured and beheaded by the ISIS-affiliated terror group Abu Sayyaf. This took place on an island in the Philippines. Your and your government's public statements in response to the terrified Canadians pleading for assistance was to announce grandly that Canada does not pay ransom to terror groups. Just terrorists, you might have added.

IMMIGRATION

Massive Influx Of Asylum Seekers Now In Quebec Canada - What You Need To Know!

George Soros and Justin Trudeau's plan for Canada is now coming to fruition! A massive influx of asylum seekers are arriving to Canada via Quebec's southern border with 250 to 300 immigrants (some illegals from Somalia) crossing over each day! In this video Dan Dicks of Press For Truth questions Canada's immigration policy as well as the mantra "Diversity Is Our Strength".

Canada is Sending in the Army as Illegal Migrants Cross Border – Have they Considered a Wall?

Does Canada have enough doctors trained, enough teachers ready, and enough buildings to home everyone? Or will it be complete mess? As President Trump ramps up his campaign against illegal migrants in the US, more and more people are likely to try and "escape" via the northern border. At some point there will be a backlash from Canadian citizens who see their schools and hospitals become over crowded, their tax money spent on Migrant Projects as opposed to maintenance efforts, and they will ask the US to start getting control of their immigration.

BOMBHELL report: Canada's Border Invasion Intensifies!

No one leaving the United States is a refugee. There is no persecution to flee in the U.S.— its the safest, freest country in the world. And both the United States and Canada acknowledge that fact in our signed Safe Third Country Agreement, which states that if someone is already in one of our countries, they cannot pretend to be a refugee "fleeing" to the other. And yet, more people than ever are doing just that. A lot more.

Somalis with criminal records coming to Canada from US, intelligence report warns

A better life and an easier path to full citizenship are what most Somalis living in Minneapolis associate with Canada. As the United States has stepped up deportations of Somalis with criminal records, some have crossed illegally into Canada and made refugee claims under false identities. The fear of deportation by U.S. immigration authorities appears to have driven some Somalis with criminal histories to travel north and illicitly cross the border to claim asylum, said the Canada Border Services Agency Intelligence Brief.

FREEDOM OF SPEECH

The danger to individual Canadians who won't toe the party line by Christie Blatchford

As the Ontario Civil Liberties Association says, in its preamble to an online petition defending Johnston's rights, "the threats to civil liberties caused by the hate propaganda sections...affect all Canadians." These sections, as the OCLA points out, define offences for speech "that need not be proven to have caused physical or psychological harm to any person...the said sections are applied at the discretion of the government, since no proceeding can be instituted without the consent of the Attorney General.

ISLAMOPHOBIA

CANADA

Are M-103 Deliberations a foregone conclusion?

There is only one way to right the rigged system that the M-103 deliberation process appears to be. Individual Canadians and organizations will need to take it upon themselves to make their voices heard. If you are one such person or group, you may consider doing so through a written submission with the help of the advice noted here. After all, absent your input Islamophobia stands to change Canada along lines that are already in evidence in other Western jurisdictions.

BEND THE KNEE FOR ISLAM: Democrats Push 'Anti-Islamophobia' Bill. Republicans Stall It.

While anti-Muslim bigotry should be a concern shared by all Americans, the so-called "Islamophobia" epidemic is ultimately fake news (just look at all the **Islamophobia hoaxes**). Muslims are far better off in the United States than countless war-ravaged Muslim-majority countries, including Syria, Iraq, and Somalia. U.S. civil and criminal laws protect Muslims and non-Muslims equally, despite what grievance-mongers may claim: Muslims (or better yet Islam) aren't any more special than Jews, Christians, Buddhists, or Hindus. By pushing special bills infused with the spirit of privileging certain religious sects, Democrats make a mockery of the law.

France: Muslim who rammed car into soldiers illegal immigrant, not known to police

There are just so many such people, French authorities can't possibly keep track of them all. And since he wasn't known for "extremism," they let him alone. After all, it isn't as if reading the Qur'an and going to mosque could "radicalize" him, right? It's a religion of peace!

GERMANY

The Racism of Islam

Germany has hit upon a novel solution: the censorship of ads that feature attractive German women. [Germany](#) has announced plans to ban images of scantily-clad women in adverts in response to the sexual assaults in Cologne on New Year's Eve. This is an implicit effort to reduce sexual assaults on German women and to get a handle on the country's rising crime rate, due largely to migrant crime. It is doubtful that such ads ever did or ever will depict women who are black, brown, or "yellow," regardless of their repressed "sexiness." Muslim women are not being attacked wholesale as white German (or Swedish) women are. I can't recall a single article that reports that a burqa or nijab covered Muslim woman had been assaulted and brutalized by Muslim men (except in the instance of "honor killing"). It has only been whites.

IRAN

Has Trump Been Suckered Into Empowering Iran

There was always a terrible risk that in prioritising the defeat of Isis the US would end up empowering Iran – whose proxy, Syria's President Assad, is an Isis foe. This is precisely what Israel is concerned has now happened in Syria, where the Israelis fear Iran is now establishing a beachhead. They also fear that Iran is building an arms factories in southern Lebanon, a country controlled by Iran's proxy Hezbollah. This is why Israel opposed the Syrian ceasefire brokered by the US and Russia which perpetuates Iran's military presence in Syria.

UK police warn man to stop criticizing Islam on Facebook

A man in Britain was visited by police and told to take down his material that was critical to Islam from Facebook. He states: The officers themselves were polite and reasonable enough, however their message was somewhat chilling: it was insinuated that if I continued to post material which could be considered critical of Islam or offensive to the practices of Muslims, I could potentially be arrested for 'hate crimes.' Equally chilling was that I have no idea how they obtained my personal information and they weren't willing to disclose this information during their visit.

UK: Still Welcoming Jihadis

Last year, members of the British government could have claimed to have been ignorant of the views of these two clerics. They could have pretended that they did not know that they were allowing into the UK two men principally known for encouraging the murder of apostates. They could have pretended to have been ignorant of the beliefs of two men who like to whip up crowds to praise murderers. They could have been unaware that such people were going to speak to thousands of UK Muslims. But they cannot be unaware this year. So what are the excuses for letting them in? Are there any? Or are the words of elected officials in Britain just words today?

Muslim Brotherhood Leader Reaffirms "Islamic Caliphate" Ambition

"The Muslim Brotherhood was established for a general overall purpose, namely, the return of the comprehensive entity of the Umma (Muslim community)...the Islamic Caliphate, which is based on many Sharia proofs," Shalash wrote in a Facebook post on Wednesday. While many Islamist apologists attempt to defend the use of terms like "caliphate" or "jihad" as purely religious and peaceful concepts, Shalash does not try to hide the Brotherhood's true colors.

Dina Habib Powell: McMaster's Huma Abedin

The swamp is deeper than most understand or imagine. When you come to the city of government buildings and lobbyists, it's all around you. And if you take a wrong step, it sucks you in. The real power doesn't belong to the politicians you elect, but to bureaucrats and staffers, to the people who, like Huma Abedin or Dina Habib Powell, are talented at knowing the right people. When we talk about the swamp, it's not an organization. It's a way of life. If you're not fighting the swamp all the time, if you don't wake up resisting it and go to bed fighting free of it, you will drown in it.

Exposed: Islamic Supremacists of North America

There has been a shift in the jihad that is waged today, it is called STEALTH JIHAD. It is weaving in Islamic extremism, using the cover of free speech. ISNA is an organization that uses the First Amendment of our Constitution to push their radical agenda forward. ISNA was one of the twenty-nine Islamic organizations listed by the Muslim Brotherhood to destroy Western civilization, create an internal Caliphate, destroy America, and then make Islam the universal religion practiced by all.

Do Islamic Jihadis Really Lack A Basic Understanding of Islam? By Robert Spencer

Pope Francis and H. R. McMaster and John Kerry and so many other learned imams have assured us over the years that Islamic terrorism has nothing whatsoever to do with Islam, and now there is proof, or what purports to be proof, in the form of a study from no less august an authority than the United Nations.

The Google Gulag

James Damore is what most people think of when they imagine a Google employee. A brilliant original thinker with interests spread across the scientific and technological spectrum. But Danielle Brown is what Google actually is: a Hillary Clinton supporter who handled diversity at Intel and Google. Google is a search engine monopoly that makes its money from search ads. It began with a revolutionary idea from young engineers much like Damore. Then the engineers became billionaires. And the company that began in a garage hired a Vice President of Diversity to get rid of the brilliant young engineers.
