

## **Submission – The Danger of Political Islam to Canada – (With a Warning to America)**

*A new book by **Tom Quiggin***

“It is the nature of Islam to dominate, not be dominated.” – Hassan al-Banna, founder of the Muslim Brotherhood.

Violent and non-violent Islamist ideologies are destroying Canada’s social fabric and freedoms. Terrorism is but one tactic of this ideology. It remains important to defeat terrorists, but the multi-faceted invasive Islamist ideology is the existential threat to Canada. As the foreword by Raheel Raza highlights “Islamist extremism will be to the 21st Century what fascism and communism were to the 20th Century.”

This is the first book published in Canada which exposes this ideology and the leading Islamist front groups. The problem has become acute, as many

Canadian politicians have adopted a policy of appeasement and submission to the Islamist threat. The Islamists, who would impose their interpretation of a politicized Islam over a democratic and secular society by law, are on the march in Canada. The M-103 Parliamentary Motion on Islamophobia, put forth by Member of Parliament Iqra Khalid, is one visible manifestation of these veiled attacks driven by a network of Islamist groups. At this time, advocating violence is increasingly being normalized while dissent is being criminalized.

The book will also examine how Prime Minister Trudeau has been a consistent supporter of the Islamist cause, while at the same time ignoring reformist Muslims and working against **Canadian values.**"

Considering Muslim Brotherhood affiliates are already being consulted on federal and provincial policy as well as our **educational curriculums**, the time for action is now! Here in this interview with TagTV, **Tom Quiggin** and **Tahir Gora** discuss the growing threats from Islamization and the politicians willfully blind to it.

The interview is 30 minutes long, but if you only have time for 5-10 minutes there is a lot of valuable information at the beginning that will open your eyes on the inroads that Islamism has made in Canadian politics.
