Canada plans to welcome more than 1,000,000 new immigrants in the next three years

The Canadian Parliament has announced plans to add more than one million new permanent residents in the next three years. That’s nearly one percent of the country’s population each year. The population of Canada is 36.71 million. The population of the United States is 325.7 million. So, this would be comparable to the U.S. bringing in 8,700,000 immigrants.

New Evidence Proves Danforth Shooter was a Terrorist

The Media lied to us. Politicians lied to us. Even the police lied to us. We were told that Faisal Hussain was a depressed loner with psychosis, despite any medical documentation. The police told us there was no underlining motive. Yet, new unsealed documents show that when they

searched his apartment, they found drums of ammunition, two fully loaded AK47s, 9/11 conspiracy videos and \$9,300 in strange receipts from some place in Pakistan. Here is the whole story of the terrorist attack: Drugs, guns, chemical weapons and the Muslim Brotherhood.

Canadian Anti-Hate Network accuses law firm of promoting ethnic cleansing while hiding its own ideological bias

The supposed anti-hate organization seems to be more interested in bullying people for political wrong-think than fighting any form of real hatred in Canada. It is sad that organizations like the Canadian Anti-Hate Network carry any weight when they are clearly serving as a political censorship tool designed to bully Canadians rather than fight hate.

Free Speech Is Dead in Canada: The Persecution of Christian Activist Bill Whatcott

In the past year, I witnessed two frightening assaults on free speech by a kangaroo "justice" system. This wasn't in some banana republic, North Korea, or China; it was in Canada. These were gut-wrenching experiences for me. These stories from Canada are potent warnings to the U.S. If our government is allowed to prohibit or compel speech on something as

irrational and harmful as transgender ideology, it will condition citizens to accept almost any sort of censorship. You have been warned.

'Islamophobia' Invention Has Served Its Purpose Spectacularly Well

Western opinion leaders have even advocated for Islamic supremacists by forbidding criticism of Islam. The Canadian Parliament recently condemned "Islamophobia," and a Parliamentary committee is now crafting measures to implement this motion. Christine Douglass-Williams was fired from the Canadian Race Relations Foundation board for criticizing political Islam, showing that the government is willing to terminate appointed employees - even of so-called independent institutions -- for alleged Islamophobia. Just as in the Canadian "Human Rights" Commissions and Tribunals, truth is not allowed as a defense.

Mohamad Fakhri – Trudeau's Most Valuable Political Asset

Mohamad Fakhri has managed skillfully to translate his meteoric business success to political power by establishing close relationship not only with Canada's prime minister Justin Trudeau, but also with other Liberal ministers, members of Parliament and local politicians. "I am proudly supporting Motion 103 that calls on the government to recognize the need to quell the increasing public climate of hate and fear and condemn Islamophobia and all forms of systemic racism and religious discrimination.

Saudi government helps Muslim accused of sexual assault in Canada elude prosecution, flee the country

A Saudi man accused of sexual assault in Sydney, but location remains a mystery. Where is Mohammed Zuraibi Alzoabi? It’s a question that plagues his alleged victims, who expected the 28-year-old Saudi Arabian man to face charges of sexual assault, assault, forcible confinement, uttering threats, criminal harassment, dangerous driving and assault with a weapon (a vehicle) in separate trials related to two incidents that occurred in Sydney between 2016 and 2017.

A brief history of Sharia Law in Canada

What exactly is Sharia? It’s a set of guidelines and religious rules, stemming from the Islamic Qur’an and Hadith, that guide Muslims and command an overall way of life. It’s more than just a legal system; Sharia dictates both the private moral teachings of the Islamic faith as well as strict public rules that all Muslims are commanded to live by.

Rahaf's Saudi Family Will Never, Ever Stop Coming After Her

Make no mistake. She remains in real and terrible danger. She has shut down her Twitter account due to death threats. Her family will never, ever stop coming after her. She is a disobedient woman and as such deserves constant humiliation, beatings, broken bones, solitary confinement, and, if she is lucky, a forced marriage to a man the age of her grandfather, who already has three wives and twenty children. She is also an apostate. This is a capital crime. Rahaf has just been granted asylum in Canada! I wonder how much it will cost them to provide security for her for the rest of her life?

ISLAMOPHOBIA

“The inventors and purveyors of ‘Islamophobia’ have succeeded beyond their dreams in silencing criticism of Islam”

Indeed they have. The idea that opposing jihad mass murder and Sharia oppression of women, non-Muslims and others would be stigmatized and marginalized to the degree that it is today is breathtaking. Most people

now take for granted that any negative statement regarding Islam, even criticism of jihad terrorists, is “Islamophobic” and to be shunned and silenced. And so the advancing jihad is essentially unopposed; most people are afraid to say a word. And the social media giants are steadily choking off all criticism of Islam; even MasterCard and Discover have now begun denying their services to those who dare to violate Sharia blasphemy laws.

The rise of financial blacklisting

‘When, oh when, are social media giants going to do more to combat hate speech?’ The more important question is, though: ‘Who gets to decide what is hate speech?’ From YouTube and Twitter to Facebook and Patreon, Silicon Valley’s answer seems to be: the kind of Social Justice Warriors who think any viewpoint to the right of Bernie Sanders or Jeremy Corbyn is literally Hitler. As Dr. Jordan Peterson says: “I thought gigantic multinational corporations were the enemies of the radical left?”

Muslims threaten to murder woman for leaving Islam, politicians silent, “scared of offending” Muslims

DENMARK

“In One Generation, Our Country Has Changed”

The outraged international press did not offer any answers to the legitimate question of what governments are supposed to do with hardened criminal asylum seekers, who pose a genuine threat to their surroundings and have been sentenced to deportation, but cannot be deported from the country because of international human rights obligations. The problem is far from a uniquely Danish one: virtually all European countries have signed international human rights conventions that leave them with the same dilemma. Clearly, the right of law-abiding citizens to live in peace does not count for much on the scale of international moral outrage.

A Trump of One's Own

The Guardian was quick to add that Salvini's party and Brudziński's "share similar anti-immigration, anti-Muslim and Eurosceptic views." It would be fairer, of course, to say "anti-Islam" here rather than "anti-Muslim," and to describe Salvini and Brudziński not as "anti-immigration" but, rather, as opposed to suicidal immigration policies that have flooded much of Western Europe not with potential Nobel Prize winners but with likely rapists, Jew-beaters, gay-bashers, and lifelong welfare recipients, not to mention more than a few would-be jihadists and cheerleaders of terror.

How the Border Crisis Caused a Crisis 2,500 Miles Away in Maine

Three or four African families are now arriving in Portland's shelter system every week after crossing the border. Many more, according to Portland's social services director, are waiting in Texas in detention centers, eager to come to Portland. "We can't sustain what is happening," he was quoted as

saying. The catastrophic disaster in Portland, Maine has robbed the native population of needed social services while diverting them to foreign migrants. While President Trump has moved to reduce the number of refugees bleeding communities like Portland of their resources and their future, there is a new threat.

Laura Loomer Brings Illegal Immigrants to Nancy Pelosi's Home. Pelosi Has Police Remove Them.

Self-described investigative journalist Laura Loomer, accompanied by illegal immigrants from Guatemala and Mexico, lugged a tent onto Pelosi's multimillion-dollar vineyard estate, freelance journalist Nick Monroe reported Monday. In large red letters, the word "immorality" was written across the tent; there were also photos of murder victims of illegal immigrants hanging from the front of the tent. Livestreaming the event, Loomer took the time to read each of the victims' names and reiterate that these folks were not welcome in "sanctuary state California."

The Primary Role of the Mosque is the Seat of the Islamic Government

When a mosque is built, muslims are claiming up to three (3) miles around the mosque as Islamic territory. A War to Achieve Modernity

I dream that we Muslims break free from the entrapments of the controlling forms of religion. At times, it feels like a disease that has been

tolerated for too long. It has caused us so much pain and isolation: be gone. There is only one way to defeat it: push for a victory with Prince Mohammad bin Salman as he takes on Iran, Turkey, Qatar and the Muslim Brotherhood. His historic role is to fight the most violent and reactionary interpretation of this religion, its individuals and organizations, and to lead reform and deradicalize societies. Extremism has no place in our world.

The Peaceful Takeover of Europe

Muslims start to build a parallel society in education, welfare and policing. For this, they are in need of co-financing from a state to which many may often not be loyal. The state meets their demands out of fear of illicit activity and rioting. It tolerates polygamy; is hesitant to inspect the driver's licenses of Islamic suspects; and refrains from monitoring the content of sermons in mosques. Apparently conscious of this fear, Islamists step up their demands.

Islamism Flourishes in Darkness

As the *Washington Post* tells us, democracy dies in darkness. But Islamism also flourishes there. Even in its coverage of American Islam, the Post has encouraged readers to see the terror-linked Council on American-Islamic Relations, or the Farrakhan-friendly Linda Sarsour, as credible voices of American Muslims. And yet these Islamists have no mandate from ordinary Muslims; instead, these extremists derive most of their legitimacy from media outlets blindly willing to homogenize minorities and declare their loudest voices to be representative leaders.

Lessons We Seem Unwilling to Learn

The question to ask is why are there so many people in the Muslim community who would object to such an exhibition and why these extremists have so much sway (as opposed to merely being an embittered fringe) that they can actually get their way. What is it about the fragility, and vulnerability of the Muslim community to the dictates of extremists that we can learn from an episode such as this one?

Muslim Brotherhood: Deceptive Since Its Founding

The logo of the Muslim Brotherhood depicts two swords, not two branches of an olive tree. Similarly, the motto speaks of death as its honorable aspiration, not of community service. Needless to say, putting such a logo and motto on the front gate of a building doesn't give the impression of a charity organization or a shelter to feed the needy. Despite many verses in the Quran that encourage Muslims to help the needy, the poor and to give charity, the Brothers chose a verse that talks about preparing arms to strike terror in the hearts of the enemies of Allah. If the Muslim Brotherhood preaches hatred and commits acts of violence, it is a hard sell to say it's a peaceful and charitable organization.
