CANADA

Muslim Brotherhood Infiltration into Canada

The leaders of the terrorist group in Canada view that country as an integral part of the great Brotherhood project in controlling Europe and decision-making in the Western world in general. The Brotherhood sought to penetrate into Canadian society under various names and activities, and most importantly by pushing Motion M103, which is against the freedom of speech and essentially criminalizes “Islamophobia.” It was sponsored by Canadian MP Iqra Khalid, a Muslim of Pakistani origin. This group continues to seek to penetrate further into Canada and use its influence to Islamize Canadian society.

Motion 103, free speech and Islamophobia in Canada

The Muslim Brotherhood in Canada is using the term "Islamophobia" to manipulate and achieve its own goals and interests. Canada is becoming more and more primed, with the help and influence of Islamic groups such as the Muslim Brotherhood and the Liberal government, eventually to become an Islamic caliphate and, sooner than that, a safe haven for terrorists.

A Health Care System That's the Envy of the World

Unless you live in Canada and have the dubious pleasure of experiencing the one-tier system of finding a family doctor, wait times in hospitals, wait times for imagery exams, wait times to see specialists and wait times for treatment or surgery, you can't really appreciate the true meaning of the word "affordable" in Canada's very affordable public health care. Canada's single-payer public health care system, heavily funded by taxpayers, forced over one million patients to wait for necessary medical treatments last year. An all-time record in a country of only 36 million. The only thing Canadians are guaranteed is a spot on a waitlist.

Canada: Muslim cleric who predicted that "Muslims will kill the Jews" ousted from community center

An Edmonton imam has been prevented from leading prayers at a local community centre after B'nai Brith drew attention to his hateful rhetoric from the pulpit and online. Sheikh Shaban Sherif Mady, who claims to be licensed by the prestigious al-Azhar University in Egypt, told congregants in March that "international Zionism" was behind ISIS, the recent terrorist attack on two mosques in New Zealand, and "all terrorism."

The Peoples Party of Canada Immigration Policy

Right now, only 26% of all the immigrants and refugees who come to Canada every year are directly chosen because they have the right qualifications and work experience to fulfill our economic needs. The rest are dependents (spouses and children), come through the family reunification program or as refugees, do not work, or do not have the skills that we need even if they find work. A study puts the cost to taxpayers in 2014 at roughly \$5,300 per immigrant living in Canada, for a total annual cost of somewhere between \$27 billion and \$35 billion.

B.C. Human Rights Tribunal is the real villain of the Jessica Yaniv farce

Far too little attention is being paid to the real villain of this black farce, which is obviously the tribunal itself. There are a lot of creeps out there who would wreck your life and take your money without a moment's thought. The government is supposed to make life more difficult for them, not easier. The real story here is that the B.C. Human Rights Tribunal did anything with Yaniv's endless complaints except crumple them up and throw them in the garbage.

The right to say no

Should a woman providing Brazilian waxing be obliged to provide the service to a person with male genitals? Should a woman providing waxing services go into a home she doesn't wish to enter? The answer to both questions is clearly "No." No woman should be obliged to handle male genitals or go into a home against her will.

Alleged predator Jessica Yaniv arrested; home searched

The Post Millennial has confirmed speculation that the Walnut Grove home of Jessica Yaniv was raided by the Royal Canadian Mounted Police last night. The raid follows Yaniv's explosive live appearance on Blaire White's YouTube channel, brandishing and demonstrating the functionality of a taser at one point in the debate, and claiming to be fully aware of its illegality. Yaniv also claimed to possess pepper spray.

Dear Media,

In order to qualify for debates Mr. Bernier was required to have candidates in 90% of the 338 ridings. He has not only fulfilled this quota but surpassed it...and yet the media is silent. We insist the media report in detail the amazing success story of Maxime Bernier and the People's Party of Canada. We further request equal press coverage for each Party leader and that debates be organized providing an unbiased and neutral environment. Should these requests be disregarded the public will commence a campaign calling on the CRTC to take action against the media for failing to uphold and obey the Broadcasting Act.

Drag Queen Show Featuring 9 year old Cancelled due to Anti-Trans Activism

Political correctness has resulted in a license to abuse the minds of bodies of our precious children. Parents must unite to overthrow the insidious, destructive transgender industry. If there is one word of encouragement in the face of these types of events, which seem to be multiplying by the day across North America, is it that a single parent can make a difference.

B.C. court ruling against father in child hormone treatment case sets dangerous precedent

According to a 2011 Swedish study, people who receive affirmation therapy, cross-sex hormone therapy and surgical manipulation of their bodies, experience life-long psychological trauma and a suicide rate 19 times higher than the general population. Further, cross-sex hormones result in irreparable changes such as increased risk of cancers, heart disease, osteoporosis and permanent infertility.

C3RF Members Update – 9 August 2019

This week's update looks at the long history of "responsible government" in Canada. A concept that flowed from the Upper and Lower Canada rebellions of 1837/38 and transformed the country from a colonial vassal state to one characterized by a representative government "by and for the people". It also notes that the benefits generated by this citizen-centered, representative democracy stand to be lost due to the actions of a variety of players and entities working their own agendas. These include judicial activists, party apparatchiks, nonsensical, politically correct narratives and global agencies and initiatives. It seems clear that the restoration of "responsible government" in Canada will require citizens to elect good men and women to office. Men and women who have the "royal jelly" to rebuff those who would usurp the political power and individual rights of their constituents.

CALL TO ACTION!

Canadians have been growing evermore concerned over the media's participation in censoring and influencing social and political agendas. It is time to hold them to account for their political bias and interference. Whether one is in favour of, or not, Maxime Bernier and his party is irrelevant. This is a matter of protecting democracy and freedoms.

Please join the **CALL TO ACTION** campaign by signing your name to this letter and forwarding to Global, CTV, CBC News and CBC Ombudsman, Jack Nagler. All email addresses are included.

ISLAMOPHOBIA

CAIR Islamophobia Report: A First-Class Fraud

The Left has become increasingly aggressive about silencing its critics. In late June 2019, James O'Keefe's Project Veritas released its latest undercover video showing Google's frightening institutional bias and its apparent intention to manipulate public opinion to influence the 2020 elections. Google is just one of many on the Left seeking to mislead, discredit, defame, and silence the Left's opponents. But they are not alone. In what we have called the Red-Green Axis, Islamic groups in the U.S. and abroad have partnered with the Left to silence anyone who questions any aspect of Islam, including Islamic terrorism. The Council on American Islamic Relations (CAIR) recently published its latest effort in a piece titled Hijacked by Hate: American Philanthropy and the Islamophobia Network.

POLITICAL CORRECTNESS

Banana Republic Can't Cover up Women Fast Enough to Sell Then Hijabs

An American brand that claims to tap into the liberating power of fashion bet big on subjugation and discovered that no amount of subjugation is ever enough. The hijab is not just another twenty-buck shmata. Its origins go back to 7th century Arabia where Mohammed faced the same problem as his modern ISIS counterparts. He had to figure out how to tell apart his wives and his rape victims. Or, as Islam likes to call them, concubines. Or, as the media likes to call them, underage sex slaves. If the Gap brand thought that displaying some garments of female subjugation between its ugly purple purses and its eighteen-dollar scrunchies would win over Islamists, it had another thing coming.

AMAZON, GOOGLE

Big Tech wants you DEAD: Amazon caught removing documentaries about how to stay healthy and prevent disease naturally

"Anti-vaccine" documentaries such as *Vaxxed* have already been removed by Amazon as well as *Flipping The Script: When Parents Fight Back*, a documentary about parents who are trying to fight back against forced chemotherapy for their cancer-diagnosed children. And we're now learning that films about cancer and HIV are also being pulled, simply because they contradict the official narrative that Big Pharma and the medical industry as we currently know it have all the answers about how to stay healthy.

YouTube Follows Amazon, Censors 'Killing Europe' Islam Documentary

YouTube blacklisted *Killing Europe*, a documentary about Islam and mass immigration in Europe that had previously been hosted on the platform for over a year, just days after Amazon Prime made the same decision. Unlike Amazon, which said it censored the documentary due to “quality” concerns, YouTube accused the documentary — a critical examination of immigration in Europe — of violating its “hate speech” policy.

There's no hypocrite like a rich, jet-setting anti-global-warming one

It comes down to this. Those who most harangue and harass the rest of us on our “carbon” usage are the greatest wastrels of all. They own numerous mansions, live in palaces (Harry), travel on private jets and yachts the size of Sweden, burn money by the bucket load, and toss more of those fatal carbon emissions into the air than any single person since Saddam Hussein set fire to the oilfields at the end of the Gulf War.

Killing Free Speech in France, Germany and on the Internet

When will Facebook -- and YouTube -- make it a priority to remove material featuring the terrorist Awlaki, whose incitement has inspired actual terrorists to kill people? In September 2018, Canadian media exposed that a Toronto terrorist leader, Zakaria Amara, while serving a life sentence for plotting Al Qaeda-inspired truck bombings in downtown Toronto, nevertheless had a Facebook page on which he posted prison photos and notes about what made him a terrorist. Only after Canadian media outlets contacted Facebook to ask about the account did Facebook delete Amara's account "for violating our community standards."

AROUND THE WORLD

FRANCE

France Slowly Sinking into Chaos

France today is a country adrift. Unrest and lawlessness continue to gain ground. Disorder has become part of daily life. Polls show that a large majority reject President Macron. They seem to hate his arrogance and be inclined not to forgive him. They seem to resent his contempt for the poor; the way he crushed the "yellow vest" movement, and for his not having paid even the slightest attention to the protesters' smallest demands, such as the right to hold a citizens' referendum like those in Switzerland. Macron can no longer go anywhere in public without risking displays of anger.

INDIA

India wins freedom 2.0

Acting in good faith and making India secular to accommodate its Muslim minority, for decades its Hindu leaders distanced themselves from their heritage. India's first education minister came from a family in Mecca that claimed to be a direct descendent of Prophet Muhammad. In fact, India is the only major civilizational country where you are systematically taught to hate your heritage and glorify the invaders who came to destroy it. And this absurdity is called "secularism." Under this new freedom, India's

Hindus, Muslims, Sikhs and Christians will be equals before the law and not hide behind "special status."

IRAN

Forty Years of Iranian Intolerance

What does Iran's Islamic regime have to fear from the country's Christians, Baha'is, Zoroastrians, Sufis, Sunni Muslims, or Jews? Yet its treatment of these minorities is so repressive that it seems not unreasonable to ask if the clerics might be afraid of what they consider challenges to their fantasy of pure Islamic identity. A regime that can dismiss the norms of religious freedom so viciously is not worthy of respect. The Iranian people who have been fighting for their freedom all these years deserve our immediate help.

NIGERIA

Genocide of Christians by jihadists becoming "a major global security concern"

Innocent people are being tortured and murdered in Nigeria and worldwide, while Western leaders succumb to the fear of being called "Islamophobes" and passively ignore large-scale human rights abuses that are being committed in the name of Islam. They also ignore the abuse of democratic principles by Muslim Brotherhood-linked groups, while fear continues to be manipulated against Westerners, in a vicious cycle.

Tommy Robinson

Richard Inman talks about the #FreeTommy demonstration and how the Police conducted themselves before and during the event.

It is a shame that despite genuine efforts on our side, the Metropolitan Police decided to aggravate, instigate and facilitate “**flashpoints**” of anger. We tried so damn hard to work with their demo liaison officers, but it was clear they changed their minds late in the day to deliberately cause frustration. When the higher echelons of the Police force demonstrably betray women, children, the disabled, the elderly and veterans by putting them in harms way, you need to ask yourselves why they would do that?

**Our police are a bigger threat to your freedom than
Putin**

Judges try very hard not to attack the police directly in public. They know the public must have confidence in them. They are supposed to be allies.

But Sir Richard Henriques is not just criticizing them. He is calling for the prosecutions of some officers. He knows far more than he has ever been allowed to say about police failings and misdeeds in that idiotic pursuit of innocent men on the basis of mad, incredible charges from an obvious fantasist. It is time for a full inquiry into what the police do, what they are for and what powers they should have.

UNITED STATES

America has a moral Crisis, not a gun control problem

America faces a *moral* crisis, not a gun control problem. As God and morality are purged from all our institutions, darkness, chaos, evil, and violence grow to fill in the gap. There is no political solution or regulation that will stop these evildoers. Only more armed law-abiding citizens and a true spiritual and moral revival will help reduce these atrocities and protect innocent lives.

Another ungrateful migrant creates a new 'narrative' for ingratitude

Calcutta-born Suketu Mehta, a bitter revanchist who would have been ripped to shreds as a fourth-rate, fourth world 'intellectual' by V.S. Naipaul (too bad he's not alive) puts forth the argument in the Washington Post that immigration is a reparation. His piece is titled 'I am an uppity immigrant. Don't expect me to be grateful.' Based on what he says, it's clear he views migration to the U.S. as an entitlement solely because America is so very, very bad -- and as a lagniappe, because he's so very, very good.

El Paso: The Real Root Causes of Mass Shootings

It all comes down to morality, or to a lack of morality -- or, even more precisely, to a lack of belief in it. Say what you will about TV, the Internet, video games, violence, or mass murder, it can't be right or wrong if there is no right or wrong. It's the ultimate self-evident reality: How can you build a

CAIR'S Far-Reaching and Destructive Tentacles

Having successfully cowed the US Army War College into obedience with its hysteria and cries of "racism," one can only guess just how many members of congress CAIR also cowed from signing Rep. Scott Perry's letter in defense of free speech and academic inquiry in the context of U.S. security. Such is the extent of CAIR's tentacles, the extent of the propaganda-jihad—one of many, legitimate forms of nonviolent jihad—at its finest.

"Socially Allied Elements" on the March

Can the people of the West change the situation? Yes, they can. There is still a window of opportunity. They can vote for the truly right-wing parties, go to demonstrations, as courageous people in Eastern Europe and the USSR did (and continue do it today in Russia); they can publish open letters, like dissidents did. But first of all, one should understand and recognize the main thing: the current political system in the West is not democracy in general, and of course, not "liberal democracy". The ideas of freedom, liberal values and democracy are entrusted to the militants of Antifa, BLM, "Sharia patrols" and the "jihadists" of Belmarsh prison. Welcome to anti-utopia.

Fear of Muslims Leads to Prison Conversions to Islam

Muslim prison gangs are forcing inmates to convert to Islam and follow religious practices or face violent repercussions, according to a government report. It found that large gangs of Muslim men were using intimidation tactics to force conversions and rules on other prisoners. The gangs were made up of multiple ranks including leadership, foot soldiers, recruiters, and enforcers. There is no escape from the pressure to convert, for Muslim gangs exist in all of the prisons, ready to use violence against any non-Muslim prisoners who refuse to convert. The threat is everywhere. No prison is safe.

If Charter for Compassion is truly focused on uniting around the notion of compassion, one wonders why they insist on including Islamists like CAIR, Abdul Malik Mujahid, Tariq Ramadan, and the Cordoba Initiative to represent the world's Muslims. We Killed God, Family, and Community – and now its Killing us

When we talk about gun violence, just about no one talks about these root causes. It is not as if we haven't had large numbers of powerful semi-automatic weapons in this country for many decades. In fact, when I was in high school, my classmates regularly kept rifles in their truck gun racks in the school parking lot. With the destruction of the family, the church, and the community, the reasons people have traditionally had for their very existence are in danger of receding into the past. And the outcome is

predictable: isolation, depression, anxiety, despondency, drug abuse, and death.
