

THE LAST STAND

If your hatred for President Donald Trump is such that you celebrate an election with blatant cheating because it puts him out of office, you'll have only yourself to blame if you lose the Republic. Because the people pulling the strings behind an increasingly senile Joe Biden have made clear their intention to “fundamentally transform” the Republic into a socialist Utopia.

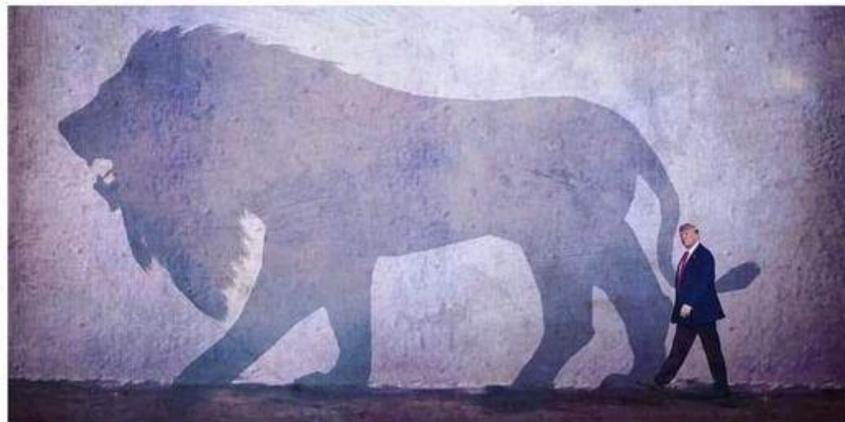

They do not hide their contempt for the Republic, the Constitution on which it is founded, and the large segment of the American people who cherish their country and honour its founders. The erasure

of President Trump's election victory on November 3rd through highly questionable mail-in ballots was a coup d'état. Perpetrators of a coup do not voluntarily give up power. You may not appreciate what you now have until you have lost it.

January 6, 2021 will be one of the most monumental days in American history.

THE WORLD IS WATCHING.

~ Valerie Price ~

"As President, "I have no higher duty than to defend the laws and the Constitution of the United States of America. That is why I am determined to protect our election system, which is now under coordinated assault and siege".

~ Donald J. Trump ~

He Fights

The Left has been engaged in a war against America since the rise of the Children of the '60s. To them, it has been an all-out war where nothing is held sacred and nothing is seen as beyond the pale. It has been a war they've fought with violence, the threat of violence, demagoguery and lies from day one – the violent take-over of the universities – till today

To my friends on the Left – and the #NeverTrumpers as well -- do I wish we lived in a time when our president could be "collegial" and "dignified" and "proper"? Of course I do. These aren't those times. This is war. And it's a war that the Left has been fighting without opposition for the past 50 years. So, say anything you want about this president – I get it, he can be vulgar, he can be crude, he can be undignified at times. I don't care. I can't spare this man. He fights.

President Donald J. Trump's Accomplishments List

You would think the Establishment "Never Trump" Republicans would have gotten the message. We don't want globalism, we don't want open borders and we don't want weak Republicans voting for Democrat policies. The Anti American Democrat party is the party of communism, globalism, crime and no solutions.

January 6th, Patriots' Day

When Donald Trump took office in January of 2017, neither he nor the patriots that put him there realized the extent of the Deep State. The swamp is global, the mire is deep. The scheme of the globalists is to take over the governments of the world and transform the planet into a one-world Communist state with Sustainability as the new world religion. This sustainability is only for them, to sustain their money, their power. Any fool can see forces are gathering against the people. Big Tech, Big Media, Big Medicine, Big Pharma

Wednesday, Jan. 6, 2021:'The Cavalry is coming, Mr. President!'

The March for Trump on Wednesday will prove that not even the Democrat/media gang-up can kill America; that not even a stolen election that no one is willing to investigate can kill off America. Patriotism keeps the much-beloved America alive. And Wednesday? As March for Trump Kylie Jane Kremer says: "The cavalry is coming, Mr. President!"

What a Stalin quote about rigging elections reveals about the 2020 Election

As Republicans began pushing back against the rigged election, a quote about voting from Joseph Stalin began circulating on social media. "The people who cast the votes decide nothing. The people who count the votes decide everything," is how variations of it went. As soon as the quote went viral, the media's fact checkers tried to suppress it. There is of course a very good reason for suppressing the Stalin quote because it does apply all too well to the election. And there's a profound sense of history repeating itself in the media trying to suppress a Stalin quote about using the media to suppress an election. Because that is exactly what Stalin did.

Biggest Horse-Race Fixer of All Time Says Democrats Stole Election. Here's How.

Twenty five years ago, "Ritchie" may have been the greatest and most prolific horse-race fixer in history fixing over 1,000 horse races in 11 years at every racetrack in California. For over 50 years, he witnessed the smartest and sharpest scammers and cheaters in the gambling world. No one can spot a scam like Richie. My buddy has a Ph.D. in the Art of the Steal.

Richie watched and studied the 2020 presidential election. He calls it "the greatest scam and steal in world history." He says anyone who denies this election was stolen is a criminal who was in on the scam; a bribed politician or bureaucrat who benefits from the scam; or a complete naive moron.

64 Days of Angst for Trump Supporters

There is so much evidence, including 2,500 sworn affidavits (under penalty of perjury) that the situation almost defies belief that no court and no

judge will take on the issue. On top of that, we now have reports of numerous governors, state secretary of states, board of election directors, and so forth that have direct ties to China. This is not speculation, it has been shown conclusively.

China, the Democratic National Committee, and a host of others who have been paid off directly maintain a vested interest in not having this election overturned. Indeed, if it were to be overturned, many of those who have accepted bribes, and acted contrary to a free and Democratic society know that they would be susceptible to lawsuits – not just civil, but criminal.

Dear Jill Biden...

You hold the key to not only the future safety of Joe, Hunter, and the entire Biden family, but of equal importance, a life or death sentence for an untold number of your fellow Americans. Today, you have the opportunity to convince Joe that it would be in his best interest, and that of your family, to concede from the election before January 6th.

Peace be with you, Jill Biden. This is your hour. The American people stand with you and will forever be grateful for your courage.

Entering 2021, the Future of a Free Republic Hinges on Courage or Cowardice

Is there still a question of whether our election is in the process of being stolen? Only cowards, criminals, and the thieves themselves will dispute it! Then what of the rest of us who call ourselves Americans? Will a free people defer to the cowardice of their pampered so-called leaders, who may have already struck deals with the criminals and thieves who lust for fame, power, or wealth? Will a free people tolerate the theft of their Republic?

Georgia Senate subcommittee holds hearing on election issues

Jovan Pulitzer's presentation at the GA Senate Meeting yesterday was in a word "DEVASTATING" to #DNC & #DeepStateCabal. It is so clear and understandable. We CAN determine the vote outcome in these states. This is how you DETECT Election Fraud using scanning technology. This link will take you directly to the 18 minute section to watch out of the 3 hour senate hearing.

Hey, GOP: This is Your Do or Die Moment

This is the GOP's last stand. If they don't support the leader of their party, and he falls, that's it for their party. Many Trump supporters, myself included, would gladly walk away from the GOP, in votes and financial contributions, to a new party or no party at all, voting only in local races or ballot initiatives, telling the national GOP and RNC to go Trump themselves.

A former Army Intelligence Captain shares a boatload of election oddities

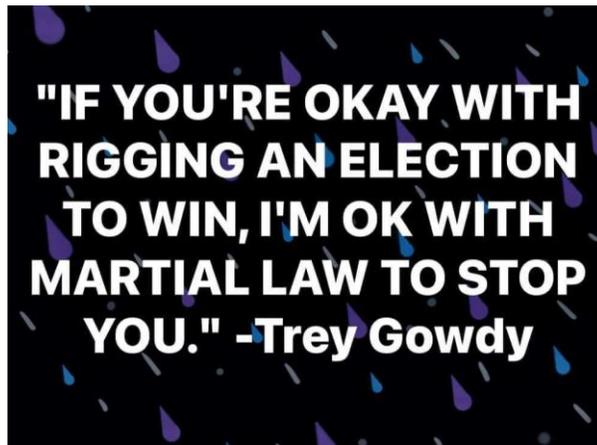

Don't watch unless you've got your blood pressure under control. On New Year's Day, an interview on Pure Social TV featured Seth Keshel, former Army Intelligence Captain. It focused on numerous election patterns that bucked historical trends. Keshel is smart, serious, detail oriented, and gets right to the heart of things. He also uses simple graphics to support his points.

Beneath the Tough Exterior

There is more to Trump than the streetfighter persona most people know. The following stories are intended to give the reader a fuller glimpse of Trump the mensch. As George Elliott wrote: "Don't judge a book by its cover".

THE ALTERNATIVE

White Renegade of the Year — 2020

There's an idea of a Joe Biden — but no real person. He is the president-elect, but he seems almost irrelevant even before he takes office. A President Biden will punish whites. He'll push for that "unrelenting" stream of immigration. He'll impose more gun control. He wants to "eliminate racial disparities" in incarceration — impossible unless blacks suddenly stop committing crime or go unpunished. He'll also unleash Kamala Harris, whose plan for "combatting violent hate" is to muzzle pro-white speech. He'll throw the book at whites who have said far milder things than he has. He'll be the national version of Virginia's Governor Ralph Northam, who collectively punished Virginia's conservatives to atone for having once been in black face.

6 of Biden's top cabinet picks belong to radical Soros-linked organizations

During the campaign, Democratic candidate Joe Biden was enigmatic about his platform, frequently changing his position on major issues like fracking, the New Green Deal, and foreign policy. But as he announces his proposed cabinet members, their platform, a matter of public record, becomes clear since at least four senior members belong to an exclusive organization proposing radical plans for America.

Anthony Blinken, Joe Biden's proposed Secretary of State, seemed to be a fine choice. But a closer look reveals that Blinken is on the Advisory Board of an organization called "Foreign Policy for America" (FPA), a self-described "nonpartisan, membership-based advocacy organization "founded in the weeks after the 2016 election as a home for Americans who opposed xenophobia and military-first foreign policy."

The Censored Hunter Biden Laptop Story Is Coming Back to Bite Twitter Big Time

Remember the Hunter Biden laptop story? The story that the Big Tech and media giants censored before the election because it would hurt their candidate, Hunter's dad, Joe Biden? Remember when Twitter censored *The New York Post's* account because it claimed the explosive business memos, photos of a drug-imbibing Hunter, and boudoir photos, some allegedly with an underaged "family member," came from a "hacker"?

The non-hacker, computer repair company owner John Mac Isaac, is now suing Twitter for \$500,000,000.00 for libel, defamation, and ruining his business because the social media giant disparaged him.

Eventually, Twitter unlocked the *Post's* account but Big Tech successfully tamped down the story before the election. If you're looking for election tampering, this censorship episode deserves to be at the top of the list.

Joe Biden Courts Islam, not Muslims

Islam is not a race, and mandating respect for Islam is not the solution to discrimination and marginalization experienced by Muslims. By exploiting theological arguments, Biden not only risks alienating non-observant Muslims and non-Muslims, he is promising that he will elevate and promote respect for Islam and its Divinely mandated path, Sharia. Surely, this is the task for the mullahs, not the president of the United States.

Joe Biden, the Manchurian President

I have a question I'd like to ask the half of America that supposedly hates Donald Trump so bad they voted for a corrupt, senile old man... do you really hate him so much you'd betray your own country? Are you willing to side with Communist Chinese over a man doing his best to return America to greatness and keep us there? If the Electoral College certifies Joe Biden's election, we'll have our first Manchurian president.

Hunter Biden, Joe Biden built an international crime syndicate with ties to human trafficking organizations, prostitution, money laundering, bribery and extortion

A bombshell US Senate report based on months of investigations has now been released, detailing the Biden family's extensive ties to a "vast financial

network” that the Bidens had put in place during the Obama administration, involving hundreds of millions of dollars in illicit financial transactions that tie the Bidens to extortion, bribery, kickbacks, money laundering and numerous international crimes.

Joe Biden, much like Barack Obama and Hillary Clinton, is a treasonous criminal who abuses power to enrich himself and his family members while compromising natural security and the integrity of the United States government. No wonder the Democrats love him! All the new heroes of the Left are criminals, and the bigger their crimes, the more the radical Left loves them.

Biden to Line Admin With Silicon Valley Cartel, Including Former Google CEO

Under a Biden administration, Big Tech might get its own corner office in the West Wing. Eric Schmidt, the former CEO of Google who also figured prominently in the Hillary Clinton presidential campaign, is being considered to lead a tech task force in a potential Biden administration. A number of Big Tech executives joined the Biden transition team mere weeks before Silicon Valley censored the *New York Post's* bombshell article on the alleged corruption of the Biden family.

The Biden Administration and the Mexican Border: Questions of Food Security, Drug Smuggling and Money Laundering

In Arizona, state law enforcement and agriculture inspections at cattle crossing points at the Mexican border are a thing of the past. Federal Customs Officers are not agriculture, veterinary or firebrand inspectors. Mexican cattle crossing into Arizona cannot be traced once they enter the

U.S. The cattle should be traceable all the way to the slaughterhouse. It is a question of disease. The sale, movement and slaughter of untraceable cattle are a means to smuggle drugs and a way for the Mexican cartels to launder money.

Why OPEC+ may welcome the Biden administration

OPEC's market share in the U.S. has been on the decline since the start of America's "shale gale" in 2010. Strong domestic production, the proliferation of electric vehicles, and now the COVID-19 pandemic, have all lowered demand for foreign oil. We can fully expect the 1.64 million barrels per day that the United States imported from OPEC in 2019 (22 percent of U.S. oil imports) to continue trending downward under a Biden presidency.

Biden Administration: Here's Who Has Been Named So Far

Biden will overhaul departments to remove Trump appointees and nominate officials who will carry out his policy agenda. These officials require Senate confirmation. These officials will work on Biden's push to roll back Trump administration policies on immigration and climate as well as help with the coronavirus response. Many of these officials for key agencies must also receive Senate confirmation.

Why I will not accept Joe Biden as president by Newt Gingrich

I have any interest in pretending that the current result is legitimate or honorable. It is simply the final stroke of a four-year establishment-media power grab. It has been perpetrated by people who have broken the law, cheated the country of information, and smeared those of us who believe in America over China, history over revisionism, and the liberal ideal of free expression over cancel culture.

The 2020 Insurrection

Can we now stop calling this an election? By pretending this insurrection is a legitimate democratic process, we're playing into our enemy's hands, giving credence to the lie that a decrepit, corrupt, sickly old man, Joe Biden, has been elected president of the United States. This is not an election; it's a coup. No, Joe Biden will not be president, because Joe Biden lost the election. To the government/media cabal staging this coup, you don't get to force an unelected dictator on America.

THE DECISION

January 6, 2021: The Day of the Electoral Epiphany

January 6 marks the festival of the Christian Epiphany commemorating the visit of the Magi—the three “wise men” of popular parlance—bringing gifts to the Christ child. It is also the day on which the presidency of the United States will be determined as the “wise men” of Congress meet to certify or decertify the vote of the Electoral College. The question is whether the current legitimate president will be recognized or whether a pretender to the throne, a false messiah, or, to put it bluntly, a corrupt grifter benefitting from the largest electoral fraud in American history will be confirmed in his stead.

This January 6 is the critical moment in the modern history of the United States. The secular Epiphany will “show forth” whether there will be

anything to celebrate or whether it will manifest as a terminal mockery of the will of the majority of the American people and the virtual end of the American Republic.
