Can we discuss those unmarked graves? Expert panel counters the uncritical media narrative about residential schools

In the early years of the residential school system – around the 1890s – approximately one-third of children died before their fifth birthday, retired Manitoba provincial court judge Brian Giesbrecht pointed out. “Death in that time – the death of a child – was not an unusual thing,” he noted. Child mortality at residential schools was not due to mass murder and genocidal intent, he contends, but rather the sad reality that children were susceptible to infectious diseases that were rampant across society during this time.

A map of the 45 churches that have been vandalized or burned since the residential schools announcement

45 Christian churches in Canada have been vandalized, burned down or desecrated since the announcement last month of the apparent discovery of graves found near a residential school in Kamloops BC. In response to these announcements, far-left radicals have used this opportunity as an excuse to terrorize Catholic and other Christian communities by targeting churches.

New COVID law in Ontario 'being used to encourage our society to accept totalitarian rule': MPP

"The Reopening Ontario Act (ROA) and the actions of our Premier are both repugnant and reprehensible," said Randy Hillier, the Independent MPP of Lanark — Frontenac — Kingston. "They are contrary to good government, to representative government, and they are absolutely unwarranted," he added. "They are being used only to instil fear to our society and to encourage our society to accept totalitarian rule."

Trudeau gov't defends mixing vaccine doses despite warning from WHO

Canada is standing strong with its decision to use COVID-19 vaccines interchangeably after the World Health Organization (WHO) called it a "dangerous trend." Canada is one of the only countries that allows the mixing and matching of vaccines with the United States and most European Union (EU) countries electing to stay consistent in first and second doses.

Seneca College makes COVID-19 vaccine mandatory for students, staff

Toronto-area Seneca College is the first postsecondary institution in Canada to announce that all students and staff coming to campus in September 2021 must have the COVID-19 vaccine. The college has not yet provided any details about how the mandatory vaccination policy will be enforced, whether exemptions will be accepted, or if lawyers were consulted during the policymaking process.

Open Letter in Support of Professor Byram Bridle (Viral Immunologist – University of Guelph)

We offer this letter in support of Professor Bridle's exemplary character and scientific intellect, and, most importantly, his right to express his scientific opinions freely and unfettered. We believe the opinions he has expressed regarding SARS-CoV-2 and the new mRNA/DNA vaccinations have always been underpinned and substantiated by the published literature and deductive reasoning. Although his opinions might appear to be contrary to the prevailing narrative, we state emphatically that this is even more reason for him to be permitted to express his thoughts freely and without fear of official censure and abuse.

Mary Simon's flippancy about French is a danger to Canada by Barbara Kay

Speaking as an Anglo-Quebecer from Toronto who put thousands of hours into achieving functional French because it was the respectful and Canadian thing to do, I was not amused by the flippancy of Simon's remark. In her new position, the words seem freighted with political symbolism. They even struck me as a rather ominous shot across the national bows: hello decolonization; au revoir central pillar of Confederation.

COVID-19 UPDATES

Mystery: 3 Presidents All Died After Blocking Distribution of COVID Vaccines in Their Countries

The presidents of three different nations have ended up dead shortly after denying distribution of the experimental COVID-19 shot. After their deaths, all three countries are now distributing COVID jabs to their citizens. The latest was Haitian President Jovenel Moise, who was assassinated at his home in Port-au-Prince last week by a group of mercenaries. Haiti had declined the AstraZeneca vaccine from the World Health Organization's (WHO) Covax Facility in May, citing widespread side effects reported in

Europe. This made Haiti the only country in the Western Hemisphere not to accept the COVID shot.

The left's disconnect: Mandate vaccines, ignore homicidal crime waves

If the vaccines are effective, then the vaccinated are protected, as are those who have had COVID and recovered. Why are they so alarmingly determined to vax every single human on the planet? COVID has a survival rate of nearly 99%, the fatalities due to co-morbidities. What is in those jabs that they are so maniacal about getting it into each and every one of us? Why do they care so much?

COVID Began Far Earlier Than We Were Told

The truth is drip, drip, dripping out, exposing mountains of the government, media, and health agency malpractice. Hopefully, there will be a reckoning for these crimes against humanity. At least we are finally learning that COVID-19 was around far longer than we were told and that spiting Trump was far more important to the media and medical establishment than seeking or presenting the truth. Too bad for the collateral damage to millions from the left's jihad against Trump and the truth.

Vaccine passports are no ticket to freedom

It's not just the unvaccinated who will pay the price, either. In a free society, nobody should have to declare their medical history in order to access a service. The obligation to do so – the creation of a 'papers, please' society – should offend the jabbed as much as the un-jabbed. It is an attack on everyone's rights. Vaccine passports won't return our freedoms – they will undermine them.

The mRNA Vaccines Are Extraordinary, but Novavax Is Even Better

The success of the Novavax vaccine should be A1 news. The recent results confirm that it has roughly the same efficacy as the two authorized mRNA vaccines, with the added benefit of being based on an older, more familiar science. The protein-subunit approach used by Novavax was first implemented for the hepatitis B vaccine, which has been used in the U.S. since 1986. The pertussis vaccine, which is required for almost all children in U.S. public schools, is also made this way. Some of those people who have been wary of getting the mRNA vaccines may find Novavax more appealing.

Did you know? Little known facts about COVID-19 jabs, media 'misinformation' and Bill Gates

Bill Gates is on record pushing for the right vaccines to lower the world population by 10% to 15%, backed by a newspaper article. The World Health Organization (WHO) whistleblower, Dr. Astrid Stuckelberger corroborates this (skip to 3:47). A call in the Italian Parliament has actually been made for Gates' arrest and trial at the International Criminal Court.

Covid-Fatigued Citizens of The World Have Been Had

Covid-19-beleaguered citizens worldwide—including the heartbreaking millions teetering on the edge of bankruptcy—from a media-hyped pandemic, you've been had. You've been had by the many outright liars elected to and holding public office. You've been had by a callous, self-

serving media bought off by lying government 'leaders' who hold public office.

Five reasons not to fear coronavirus variants

It was predictable that soon after the mass COVID-19 vaccine campaign rolled out, if the shots began failing, the media would turn into scapegoats people who didn't rush into line-ups for the fast-tracked, experimental pharmaceutical injections. The latest COVID narrative is well underway. Thousands of fully vaccinated people are testing positive for the disease – so many, the government has stopped counting cases of "breakthrough COVID," a blatant attempt to hide the problem of vaccine failure. Read the top 5 reasons this narrative is a lie.

Fear, Control and the Authoritarian Abuse of Power

Physicians, pharmacists, and nurses have no idea what is in these Covid injections. Only the people at the top of the four "vaccine" makers know. In 2021, Americans allowed themselves to become lab rats for an unlicensed and dangerous injection that is not a "vaccine," but an unapproved experimental toxic genetic agent containing squalene. Dr. Lee Merritt says this is the same ingredient in one of the "vaccines" given to Gulf War vets allegedly to prevent Anthrax poisoning, where there was no time for oversight or independent review, and instead caused Gulf War syndrome.

THE GREAT RESET

Governments rack up record debt as Great Reset seeks to 'reimagine' capitalism – please read this article

In articles, talks, and a book entitled "*Covid-19: The Great Reset*" published last year, Klaus Schwab has persistently argued that the coronavirus pandemic ought to be USED to instigate a "Great Reset" to "revamp all aspects of our societies and economies, from education to social contracts and working conditions." 'Every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed. In short, we need a 'Great Reset' of capitalism,' wrote World Economic Forum founder Klaus Schwab.

BIG TECH

Americans Need Privacy, Not Constant Big Tech Snooping

One of the tools being used by "Big Brother," to keep tabs on us is an item few of us can imagine living without...our smartphones. These devices, in the hands of dedicated leftists, have been turned against you. What you type, what you watch, what you download, and what you upload are all being monitored and recorded. Did you search for the answer to an embarrassing question? A database somewhere has recorded that. Did you take pictures of your kids today? You're not the only one who has access to those images. We rely on our phones to do so much these days, and we're not the only ones relying on them to keep tabs on us.

AROUND THE WORLD

AFGHANISTAN

Learning Afghanistan's Lessons by Phyllis Chesler

The moment the last Western military boot leaves Afghan soil, the Taliban will torch every single shelter for battered women, burn down every schoolhouse for girls, shoot on sight every female broadcaster, politician, police officer, teacher, and physician. Women and girls will again be banished from public view, whether hidden under burqas or kept indoors.

AUSTRIA

Austria becomes the first European country to ban the Muslim Brotherhood's activities outright

Last week, the Austrian National Assembly passed an act targeting the activities of ISIS and the Muslim Brotherhood. Under the new law, released terror offenders will be monitored through electronic ankle bracelets, and imams leading religious services in the country will be required to register with the government. The new regulations also make Austria the first European country to ban the Muslim Brotherhood's activities outright, as the country takes a firm stance against a growing phenomenon of political Islam.

CHINA

China Threatens Nuclear War if U.S. Continues Investigating COVID-19 Origins

The Chinese are warning about an impending nuclear war if the United States does not cease its investigation into the origins of the COVID pandemic. They warn that the Americans must call off their probe into the sources of the disease -- a warning which has prompted many American analysts to conclude that the leaders in Beijing fear discovery of the truth: that *they* -- the Chinese Communists -- are the source of the pandemic.

CUBA

Cubans Rising

Cubans took to the streets in cities across the desperately impoverished police state to protest the island nation's brutal 62-year-old communist dictatorship in what are said to be the largest public demonstrations against the regime in decades. Thousands of Cubans in at least 16 cities from Havana all the way to Santiago de Cuba chanted "libertad," the Spanish word for freedom, as they demanded an end to government oppression. Hundreds were reportedly arrested. Cuban journalists were arrested for covering the protests, according to [Cubanet](#).

FRANCE

Marine Le Pen's daddy issues

Pity, if you can, Marine Le Pen, beleaguered leader of the right-wing French National Rally. Her party, which she has led over the past decade, from the extremist fringe to a believable shot at the Presidency, performed dismally in the recent regional elections. Her grudge-bearing 93-year-old father, Jean-Marie, whom she kicked out in 2015 from the movement he founded half a century ago, now crows that her “normalisation” policies are backfiring, making her “wishy-washy” and “boring” and losing her crucial votes.

Thousands of French protesters take to the streets nationwide in opposition to mandatory vaccines and COVID passports

On this symbolic day for France and Paris when 232 years ago Parisian rioters stormed the Bastille prison, an event which is commonly accepted as the starting point of the French Revolution, Parisians were heard shouting “Liberté!” (freedom!) or “On est pas des cobayes!” (“We are not guinea pigs!”) Peoples of all backgrounds and lines of work were present at these protests and rallies to denounce the imposition of the sanitary pass in public places.

NETHERLANDS

Netherlands: Supreme Court upholds conviction of Geert Wilders for insulting Moroccans

Here we come to the heart of the matter. Does Geert Wilders oppose the entry of more Moroccans into the Netherlands because they are “brown,” or Arab? Is it just that he is racist? Or is it because he dares to notice that the Moroccan Muslim migrants have brought with them a sharp increase in crime, including jihad terror activity? Is it permissible for Dutch people to want to protect their homeland from jihad violence and Sharia oppression?

“They want to shut me up, but I will never be silent”, he said.

SOUTH AFRICA

Why Violence and Looting Have Exploded Across South Africa

Already food and fuel shortages are developing. No one is going to resupply malls that have been burned or, indeed, any shop that is vulnerable to looting. ATMs have been destroyed, pharmacies ransacked, and drink shops pillaged so there will be shortages of medical and other supplies as well. Naturally, the COVID vaccination programme has stopped entirely and the frantic mixing of (mask-less) looters is bound to produce a fresh COVID spike. The Rand has dropped sharply and could fall more.

UNITED KINGDOM

UK ex-cop: Rochdale Muslim rape gang case “continues to expose what is wrong with our so-called ‘justice system’”

We discovered this week that Adil Khan and Abdul Rauf, two convicted members of the notorious grooming gang, are fighting deportation from the UK on the grounds this will breach THEIR human rights! But what about the human rights of the victims, whose lives they destroyed? Article 8 of the European Convention on Human Rights grants the right to a private and family life, which seems fair and reasonable, right? When these paedophiles abused their victims, they forfeited all claim to their own human rights and should have been deported years ago as directed by the trial judge.

UNITED STATES

Cuba is in revolt. South Africa is on fire. The Haitian President has been assassinated. The Middle East is reeling from conflict. The Taliban is back in power. China is on the march. Russia is firing warning shots. Illegal immigration is at an all-time high. Inflation is rising. More Americans are killed on the streets than are killed in war. Meanwhile, the Leader of the Free World is scarfing down double-dip ice cream cones and sniffing children.

Biden Deploys Becerra Brigades

The white coat supremacy sturmtruppen are coming to your door. Joe Biden will deploy special squads to knock on doors in the quest to “educate” unvaccinated Americans, and Health and Human Services secretary Xavier Becerra is down with it. “The federal government has spent trillions of dollars to try to keep Americans alive during this

pandemic. So it is absolutely the government's business," Becerra explains, and "knocking on doors has never been against the law."

Kamala Harris: Who is She?

When 'Woke' is More Sacred than Old Glory

On my desk is a framed political cartoon with the caption: "Burning the American Flag is a form of free speech? Try burning a rainbow flag and see if that too is considered a form of free speech?" You could replace "rainbow flag" with "BLM flag," or even "Antifa flag." The cartoon lances the recent rise in free-speech hypocrisy that promptly abandons the First Amendment and drums up hysterical charges of "hate speech" when certain sacred cows du jour are so much as mildly criticized.

Sharia in the U.S. Judicial System?

It is vital to understand that in Islam, Allah's Law is *supreme* for Muslims, above all other laws and legal systems. And that poses a problem for America when Islam resides on its territory, because Sharia is completely incompatible with the U.S. Constitution and the foundations of a free society. Quraishi's relationship to Islam, therefore, matters a great deal --

seeing that his new position entails significant power and influence in America. Sharia mandates that no true Muslim is obligated to obey the laws of a non-Muslim country.

So Much Evidence that January 6, 2021 was a Calculated Set-Up

Political persecution and isolation of vast swaths of the citizenry by the Justice Department, the Intelligence Community, and the Judiciary in the wake of the January 6, 2021, Capitol incursion should bring a chill down the spine of every American. This same troika, but with different nomenclature, was mobilized by 20th Century despots to eliminate their political enemies and establish a police state. Thus, the script and blueprint written by the despots of the Twentieth Century are being faithfully executed. The third member of the tyrannical troika, the Judiciary, is also playing out its role in establishing a police state.

Why Islamism became woke

Nearly 20 years after 9/11, Westerners still remain unfamiliar with *dawa*. In theory, the term simply refers to the call to Islam, a kind of invitation; Westerners would recognise it as part of a proselytising mission. In practice, however, Islamists rely on *dawa* as a comprehensive propaganda, PR and brainwashing system designed to make all Muslims embrace an Islamist programme while converting as many non-Muslims as possible.
