Canada's slide towards corona authoritarianism

Justin Trudeau used to say vaccine passports were divisive and damaging. Now he's embraced them. Trudeau's embrace of vaccine passports is irresponsible and dangerous. Vaccine passports threaten bodily autonomy, free movement and even religious freedom – values traditionally defended by those on the left, like Trudeau's own Liberal Party. This could come back to bite him – Trudeau, having called the snap election, is now struggling in the polls.

An Example of Courageous Pushback for Those Facing Vaccine Mandates in the Workplace

I hereby notify you that I will hold you personally liable for any financial injury and/or loss of my personal income and my ability to provide food and shelter for my family if you use coercion or discrimination against me based on my decision to not participate in Toronto Police Service's COVID-19 vaccination and testing mandates nor will I disclose my vaccination status to you.

'Let them die': Canada's largest newspaper promotes hostility toward the unvaccinated

On August 26, the *Toronto Star*, Canada's largest newspaper, filled its front page with vitriolic and mocking comments collected from social media toward people who have not taken an experimental coronavirus vaccine. 'I have no empathy left for the wilfully unvaccinated. Let them die,' read a statement printed in large, bolded text on the front page of last Thursday's edition of the *Toronto Star*

Some Canadians really, really, really hate Justin Trudeau

The Trudeau government is the most divisive government in Canadian history – it's no wonder so many Canadians are angry with Justin Trudeau. The Trudeau Liberals have routinely denigrated Canadians they disagree with, used hateful language to describe their political opponents and pitted Canadians against one another. Canadians have every right to protest regardless of what the CBC and legacy media say.

Gad Saad's Views On Justin Trudeau

When you vote, think about the 3, 4, 5 issues that are fundamental to you, and then look at the different parties and see which one comes closest to your preferred issues. Justin Trudeau truly represents all of the cancerous, parasitic, pathogenic ideas that are anti-liberal secular societies. Enlightened societies would never support someone who espouses the nonsense that this buffoon does.

We Need to Understand the Reason for Aggressive Protests at Trudeau Events

Most of the protesters who have been disrupting Trudeau's events are anti-vaccination activists who oppose vaccination mandates. Again, try to put yourself in their shoes. These are people who genuinely feel that vaccines will cause them immediate or long-term harm. They feel hounded, harassed, and cornered as their ability to travel, work or keep their children in school may be taken away if they don't submit to vaccination. They may feel that their choices are: a) to have a toxic injection or, b) to become unemployed and essentially locked into their home. Whether one shares that view on vaccinations or not, can you imagine the pressure and stress people with that mindset are feeling right now?

Calling on the Euro-Canadian Movement: Join the PPC and Advance White Identity in Canada

Maxime Bernier's People's Party is the single largest collection of angry old stock Canadians in decades. Enraged by hate speech laws, climate alarmism, vaccine mandates, excessive taxation, political correctness, the sale of Canadian land and resources to proxies of the Chinese state, anti-white teaching in public schools and universities, and massive unrelenting non-European immigration, they have gone off the reservation and thrown their support behind the one candidate who dares oppose the political and media establishment.

Healthy young mom speaks out as she fights for her life after an adverse reaction to Moderna vaccine

We all know Natalie Klein as a fighter for small businesses and freedom. But did you know that in July, Natalie was also in a fight for her life? She had a catastrophic adverse reaction to the Moderna vaccine that has left her with a neurological injury and cardiovascular issues. Natalie is already a victim of the lockdown, a victim of an experimental drug, and now she is a victim of medical segregation at the hands of the government.

Legal Organization to Challenge Ontario Government Over Vaccine Passport Laws

This a "blatant and unjustified violation of our Charter rights and freedoms. Trudeau's hand-picked debate commission BANS Rebel News again!

Moments ago, Justin Trudeau's hand-picked election debate commission banned us from attending this year's leaders' debates. That is illegal. And Trudeau's debate commission knows it. We're going to court again. I hope we'll win. But Trudeau is taking no chances. Last time, he sent literally FIVE government lawyers to fight us. I expect they'll need a bigger courtroom this time.

Quebec police illegally seize footage and camera equipment from journalists

The police ended up taking two SD cards from Guillaume's camera. I told the policeman that he had no warrant and no right to take our equipment. He said he didn't need it. The cop, who obviously either doesn't know the law or doesn't care what the law is, arrogantly told me that I was a journalist and not a lawyer. But if he knows that I'm a journalist, then he should know he can't take our footage. A journalist, whether independent or not, should never have to turn over their journalistic materials to a police officer in a free country.

C3RF Update, 3 September 2021

This week's update notes how quickly the "ballot-box" question of Election 2021 has shifted from "climate change" to vaccine mandates and passports. How odd, and out of touch, for the government-of-the-day to see the latter as a "wedge" issue purpose-built to divide their opposition? Has their hubris set the scene for Goliath to meet his David?

Major Russ Cooper (Ret'd) 'In Hot' with PPC candidate David Freiheit

Major Russ Cooper (Ret'd) follows the reverberations emanating from the Notre-Dame-de-Grace-Westmount riding and rolls "In Hot" on Election 2021. It looks like the ballot-box question is being moved away from "climate change" and "day care" as the PPC candidate, David Freiheit, respectfully disagrees. How is it, he wonders, that "flattening the curve" was allowed to become "get an experimental vaccine or suffer the consequences". Strap in for some hard maneuvering as the discussion analyzes Canada's movement away from being strong and free to becoming a police state. Is this election really about "climate change"? Or is it about disrupting tyranny?

Grassroots group, Action4Canada, sues Canadian gov't over 'dictatorial and unlawful' COVID measures

According to the press release, “[The defendants’] actions appear to constitute criminal negligence, breach of trust, incitement of hatred, crimes against humanity committed against our elderly, our children and society at large, by withholding life-saving treatments, causing extreme psychological trauma due to the ordering of isolation, lockdowns, masking, social distancing and, without making full, true and plain disclosure of the known risks thereof, mandating and promoting dangerous experimental medical injections which they know, or ought to know, cause adverse reactions and death.”

No Vaccine Mandates or Passports!

The guaranteed constitutional freedoms we enjoy in this country - including freedom of religion, expression, association, and mobility, along with our basic “security of the person” - are under threat of obliteration. Even many of those who accept COVID vaccines agree that it is wrong to

force or coerce others into getting the shot. All of us, vaccinated and unvaccinated, must stand together for freedom of faith and conscience as we stand against the rise of tyranny in the name of "health and safety".

COVID-19 UPDATES

A strategy for defeating the COVID narrative

As you well know, the PCR test is at the heart of the narrative. A positive test supposedly equals a "COVID case." Many COVID cases equal: "we must clamp down on the citizenry; we must lock them up, close businesses; roll out a vaccine..." I've spent a year dissecting the PCR test and its MANY terminal flaws and problems. In short, the test is complete fraud.

25 reasons to ban vaccine passports

Vaccine passports should be rejected as nearsighted and dangerous. While everyone from totalitarian opportunists, to angry vaccinated people who are tired of lockdowns, to worn-down ICU staff who are weary of being overworked, many applaud such passports as the responsible thing to do, citizens and officials should reject them outright. 25 Reasons to reject vaccine passports:

Bombshell: PCR tests can't identify Delta Variant; it's all fiction

From the American Lung Association: "Regular COVID-19 tests do not detect which variant is involved in a patient's case—that information does

not change the approach to care or therapy. The variant identification requires genomic sequencing, a process separate from regular virus tests and one that not all labs are able to do or do not do on a routine basis for patient care but are done more for public health monitoring.”

Some thoughts on the Vaccine Passports you may not have considered:

The Snake-Oil Salesmen and the COVID-Zero Con: A Classic Bait-And-Switch for a Lifetime of Booster Shots (Immunity as a Service)

This is a long read but well worth it. Freedom of speech, individual rights, private property, individual ownership, competition, good faith debate, small government, minimal taxes, limited regulation, and free markets (the opposite of the crony capitalism we now suffer under), these are the checks and balances that bullet-proof a society against the soulless charlatans that fail upwards into positions of power in bloated government institutions and against the parasitic fraudsters that seek to attach themselves to the government's teat. Yes, we need a Great Reset. Just not the subscription-based version that the World Economic Forum imagined.

AFGHANISTAN

A kinder, gentler Taliban? Don't be so deluded

Here's the thing: a West that no longer knows what it stands for is not going to be able to articulate what it stands *against*. A West consumed by loathing for its own traditions and values, as can be seen in the woke turn against modern Western history being embraced everywhere from the White House to university campuses across the Anglosphere, is hardly going to make a good fist of standing against a foreign movement that likewise loathes our way of life. theocracy.

Soulless 'incompetent' responsible for abandoned service dogs in Afghanistan

Ahmad Massoud, Man of the The Hour

The Taliban are mostly Pashtun. Massoud is Tajik. His father, Ahmad Shah Massoud, was the leader of the Northern Alliance before he was assassinated, and before the Northern Alliance overthrew the Taliban with American help. Ahmad Massoud was 12 when his father died. He went to Iran, then England where he trained for a year at the Royal Military Academy at Sandhurst before obtaining his Master's degree in International Politics from City, University of London, in 2016.

So we have a British military cadet, with a Master's degree, who speaks fluent French and has met the French President, at the head of the Afghan resistance. One could hardly invent a more attractive antidote to the bearded thugs now in charge of the country.

Kabul is pumping new blood into the arteries of the jihad and the results are seen all over the world. We must understand that the Islamic mentality is a 'zero sum game'. FREEDOM OF SPEECH

Now NPR trashes free speech: Are the ruling elites looking to move in for the kill?

Now they want to censor and regulate free speech on the logic that some people get their feelings hurt, elevating the whole idea to a matter of saving mental health. It's garbage, of course. It's actually not very different from the leftist bid to use physical health as a means of extending government control over vaccine and mask skeptics, as well as alternative treatment advocates...because COVID. And the problem magnifies itself as leftists seek to use the levers of Big Tech to engage in the censorship they can't otherwise do based on the First Amendment roadblock.

Last month I said that we are owed an apology from everyone who rushed to judgment about Parler. So are you. You tried to sign on one day, only to find the place where you could speak freely gone. Rest assured, Parler is committed to the cause. We will not be canceled.”

THE GLOBAL RESET

We can only hope and pray that the Great Reset remains where its father Maurice Strong is—dead and buried

The third leg of this Great Reset will be implementing one of Schwab’s pet projects, the Fourth Industrial Revolution: “The third and final priority of a Great Reset agenda is to harness the innovations of the Fourth Industrial Revolution to support the public good, especially by addressing health and social challenges. During the COVID-19 crisis, companies, universities, and others have joined forces to develop diagnostics, therapeutics, and possible vaccines; establish testing centers; create mechanisms for tracing infections; and deliver telemedicine. Imagine what could be possible if similar concerted efforts were made [in every sector](#).”

The Fourth Industrial Revolution includes gene-editing biotech, 5G telecommunications, Artificial Intelligence and the like.

Yet another so-called 'transgender' man is outed as a sex pervert

In early July, a viral video showed a woman berating the staff at Wi Spa, a Korean family spa in Los Angeles, for letting a naked man in the women's and children's area. The staff was helpless to stop that because California law mandates that so-called "transgender women" (i.e., men) can go anywhere women can go. Darren agee Merager is part of a big club. The Australian government is now plunging the country into the darkest period in its history. The coronavirus is not the cause of this darkness. Evicting Donald Trump was clearly a catastrophe by Conrad Black

Seven months into the Biden regime, the truism that dare not speak its name is now almost too obvious to bear stating. It was a catastrophic error to evict Donald Trump. No one, and certainly not I, would try to whitewash the stylistic infelicities of Donald Trump. He said many things that were

toe-curlingly embarrassing coming from the holder of so great an office. But he proved in government as he had in the private sector that he was capable and forceful. He had a clear conception of domestic and foreign national interests and pursued them very successfully.

Impeach Biden by Daniel Greenfield

Joe Biden's treasonous decision to entrust American lives and security to the enemy was not committed out of any pure motive, but to protect his own political career. After decades of appeasing Islamic terrorists, Biden was only doing what came naturally to him. And he had either learned nothing from Benghazi or he simply did not care about the risk to Americans. Biden's treason led to the murder of 13 American military personnel. His aid and comfort to the enemy, his adherence to the Taliban at the expense of American soldiers and civilians led to the massacre of Americans. And he can and should be impeached for his treasonous crimes.
