Islamism's Growing Threat to Canada with Christine Douglass-Williams

How will Justin Trudeau’s re-election impact the growth of Islamism in Canada? Several worrisome signs – the lack of follow-up on Iran’s shooting down Flight 752, the passage of an "Islamophobia" bill, the push for a Special Envoy on Islamophobia – suggest the government plans further to appease the radical utopians. What implications does this have?

Quebec: Municipal party's comments about Islam being a 'cancer' prompt hate speech complaint

Whatever the merits or lack thereof of ACQ's positions, the party has a right to express its views about an ideology about which the ACQ and others have ample reason to be concerned. But open dialogue about Islam in Canada is frowned upon, due to pressure from Islamic lobbies that are working hand-in-hand with the Liberal government. In effect, Islam is placed above all other faiths, with an immunity from criticism on open platforms. This pro-Islamic formula to shut down discussion about Islam does not foster "diversity," "dialogue," or unity, about which Canada boasts. Under the country's current leadership, those features are absent.

Trudeau's vaccine mandate is about control, not health with Andrew Lawton

Justin Trudeau's vaccine mandate for federal public servants is so broad, it even applies to employees who do their jobs remotely from their own homes. This mandate proves what's become increasingly apparent in recent months, that the federal government is more interested in control than public health, True North's Andrew Lawton says.

Native Women's Association rejects Trudeau's apology for taking Tofino vacation

"Given the fact this is a nationally recognized holiday in regards to truth and reconciliation, it would have been appropriate for the prime minister to fully acknowledge this day, said Union of BC Indian Chiefs Grand Chief Stewart Phillip. Rather than do that, he has chosen to turn his back on the historical significance of today and hide out in Tofino."

Calls are mounting for the resignation of this thin-skinned, publicity-seeking, awful little man a growing number of Americans don't much trust anymore.

Canadians have a responsibility to society to relinquish their personal liberties, says Dr. Anthony Fauci, U.S. Director of the National Institute of Allergy and Infectious Diseases (NIAID). Well, isn't that rich coming from a guy whose credibility is hanging by a thread. Two words, Fauci: Butt out!

Tragedy In Rural Alberta, A Courageous Doctor Speaks Out

Dr. Daniel Nagase has been a doctor for over 15 years. He graduated from Dalhousie Medical School in 2004. He has been an emergency doctor for 10 years and has been working in rural underserved communities throughout Alberta since 2015. He has a story he'd like to share with you about what happened after he gave Covid patients Ivermectin in a small hospital west of Red Deer.

Canada Unveils Vaccine Mandate For Travelers, Federal Employees

Trudeau bragged in a statement that Canada's restrictions on travel for the unvaccinated are some of the strongest in the world. "If you've done the right thing and gotten vaccinated, you deserve the freedom to be safe from COVID. To have your kids be safe from COVID. To get back to the things you love."

Pronoun Coercion in Canada

There are many places around the world where the current transgender madness has become fully institutionalized and caused extensive damage to the lives of confused young people. But one of the very worst jurisdictions, as far as sheer sanity is concerned, is the Canadian province of British Columbia.

Stand up for the JDL-Jewish Defense League

Here in Canada and in America, the Jewish Defense League, the JDL, an organization that has provided security at Jewish events, is listed as a terrorist organization. How is it that the JDL is a terrorist organization but Antifa and BLM are not? What is it about the JDL that terrifies so many people, today? Why is the JDL labeled a terrorist organization other than the fact that the world wants to "disarm" the Jews and keep us vulnerable to never ending attacks on our rights to exist as individual Jews and a state.

US lays charges on Saudi-Canadian man accused of masterminding ISIS propaganda

Authorities believe that Khalifa initially left Toronto where he was living to join ISIS in 2013. By 2014, the man was already working for ISIS's Media Bureau due to his language skills in English and Arabic. Prosecutors allege that Khalifa played a big role in inciting terrorists to conduct attacks on the West and actively recruiting Western sympathizers to join the group. The Canadian government has yet to charge Khalifa with any crimes.

C3RF Update 8 October 2021

This week's update sees parallels between the promises associated with two weeks to "flatten the curve" and the 16th century "pig in a poke". It would appear that, upon closer inspection, we didn't get what we expected but were saddled with yet another promise in the form of a restored normality through vaccines. This second promise has come and gone only to leave us with the continuing suppression of our civil liberties and a nation divided on the basis of vaccination status. Does Lucy and the football spring to mind?

UNITED STATES

HOW TO CREATE A SOCIALIST STATE BY SAUL ALINSKY

There are eight levels of control that must be obtained before you are able to create a socialist state. The first is the most important.

- 1) **Healthcare**—Control healthcare and you control the people
- 2) **Poverty**—Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.
- 3) **Debt**—Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.
- 4) **Gun Control**—Remove people's ability to defend themselves from the Government. That way you are able to create a police state.
- 5) **Welfare**—Take control of every aspect of their lives (Food, Housing, and Income)
- 6) **Education**—Take control of what people read and listen to - take control of what children learn in school. Think: "Common Core"
- 7) **Religion**—Remove the belief in God from the Government and schools.
- 8) **Class Warfare**—Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor.

Who is Really Running the Destroy-America Biden Regime?

"When the established government does not recognize dissidents and calls them "domestic terrorists" and limits their speech, controls the media, alters the language, denies legitimate history, trashes tradition and culture, erases national borders, blurs the role of the military, destroys the canons of education, science and medicine, and uses the powers of government to spy on its citizens—that is an insurrection."

Corruption? FBI Raids Home of NYPD Sergeants' Union Head Who Criticized de Blasio and Cuomo

Now the FBI has raided the home and offices of one of New York City Leftist establishment's most high-profile critics. This will only fuel suspicions that the FBI is an institutionally corrupt and compromised agency that does not work impartially, but is simply a tool in the hands of the political and media elites. If we had any journalists today, this would be a huge story and there would be urgent calls from people at every point on the political spectrum for a thorough investigation of the FBI. But nothing is less likely than that.

Michigan: Judge Throws Out Female Genital Mutilation Case Against Muslim Physicians

Freedom of religion apparently includes freedom to abuse children, as long as it's done under religious auspices. Another effect of multiculturalism was revealed Tuesday in Detroit, where a physician was charged with performing female genital mutilation (FGM) on young girls in the United States.

Biden's DOJ Targets Parents Attorney General Garland takes aim at parents who speak out against the indoctrination of their kids.

Garland is the one intimidating "individuals based on their views." Biden's Attorney General is abusing his authority over the FBI and federal prosecutors to intimidate or, in his words, "discourage" parents with a certain point of view from loudly voicing their opinions in public forums. These parents strongly oppose efforts by the Biden administration, school

boards, school administrators, and educators to twist their children's minds with Critical Race Theory and gender identity pronouns. opposite.

An Afghanistan Grows In Wisconsin

American soldiers are back to patrolling Afghan streets and trying to win their hearts and minds by asking them to use toilets and not to abuse their women and children. But the scenes of American soldiers trying to keep the peace among Afghans and communicate American values to them are no longer taking place in Kandahar, but in Wisconsin, and in other states with the misfortune of housing Afghans.

Americans are funding three Halal meals a day for tens of thousands of Afghans, our bases are full of mosques, our soldiers are trying to keep Afghans from killing and abusing each other, and we are on the hook for every dollar in welfare spending lavished on the Afghans while Americans struggle. As the Afghans leave Fort McCoy, the occupation of America will begin. Biden didn't withdraw from Afghanistan. He brought Afghanistan to America.

Stop Licking Your Wounds

I want to take a step back from the news of the moment to talk to you about the depth of our problems in America today. I want to ask you this question: Why are the very things that once united us now used to divide us? When did being a teacher, a priest, or a cop become something politically charged, and why? Who among us wants that division to exist? Who corrupted our institutions with these lies? Who made this happen? The answer is more villainous than you might suspect, and more intentional than you might think.

COVID-19 UPDATES

Concern among Muslims over halal status of COVID-19 vaccine

As companies race to develop a COVID-19 vaccine and countries scramble to secure doses, questions about the use of pork products -- banned by

some religious groups -- has raised concerns about the possibility of disrupted immunization campaigns.

Pork-derived gelatin has been widely used as a stabilizer to ensure vaccines remain safe and effective during storage and transport. Some companies have worked for years to develop pork-free vaccines: Swiss pharmaceutical company Novartis has produced a pork-free meningitis vaccine, while Saudi- and Malaysia-based AJ Pharma is currently working on one of their own.

Vatican: OK to get virus vaccines using abortion cell lines

The Vatican declared that it is "morally acceptable" for Roman Catholics to receive COVID-19 vaccines based on research that used cells derived from aborted fetuses, guidance that came after some churchmen in the United States argued that such products were immoral. The Vatican concluded that "it is morally acceptable to receive COVID-19 vaccines that have used cell lines from aborted fetuses" in the research and production process when "ethically irreproachable" vaccines aren't available to the public. But it stressed that the "licit" uses of such vaccines "does not and should not in any way imply that there is a moral endorsement of the use of cell lines proceeding from aborted fetuses."

When they say show me your papers-show them the Nuremberg Code

Show me your papers! Never thought I would ever hear those words in my lifetime. My grandparents heard them. The Nuremberg Trials of the Nazis led to the Nuremberg Code, 1947. That code stated that no one could ever again say "I was only following orders," when the orders were immoral. We don't teach morals and ethics any more so perhaps that is the reason that people in positions of power have no idea when their actions are immoral or unethical.

Vaccinology, Immunology, and COVID-19

Some of the insights gleaned during the past two years may ultimately serve only to tell us more about who we are and where we are headed. Understanding the unique social and political forces at play may help explain why there has been such a disconnect between rapid scientific advancement and medical communication. Or, it may help us better empathize with someone who sees the pandemic through a different medical, political, or emotional lens. The advancements in vaccinology are actionable and will lead to a future where they are routinely deployed against other infectious diseases and even cancer.

The non-existent virus; an explosive interview with Christine Massey

With a background in biostatistics, Christine Massey has been using Freedom of Information (FOIA) requests as a research tool, as a diamond drill, to unearth the truth about SARS-CoV-2. As in: Does the virus exist? Her approach has yielded shocking results.

Because Christine is very precise and accurate in her FOIA requests, when it comes to what purification means, the agencies are compelled to reply... "Well, in THAT case, we have no records of virus purification..." Meaning: There are no records showing the virus has been isolated; there are no records showing the virus exists.

Why This Doctor Is Risking the Nobel Prize to Speak Out Against Universal COVID-19 Vaccination

In this interview, Malone, who was among the pioneers of mRNA vaccine technology in the late 1980s, recounts his belief that genetic vaccines such as mRNA and viral vector vaccines may risk causing antibody dependant enhancement—where a vaccine causes the production of rogue antibodies, which coming into contact with the virus, act as a Trojan Horse shuttling it, now unchallenged by the immune system, directly into the host cell where

it can replicate unhindered. Malone is not against COVID-19 vaccines. But he is against compulsory and universal vaccination, which he thinks is potentially dangerous.

IMMIGRATION

Middle East Migrants: Stay in Your Culture Zone

From the Western perspective, the open invitation of 2015-16 by the leaders of Germany and Sweden, allowing into their countries an estimated 1 million and 100,000 unvetted migrants, respectively, from Syria and elsewhere, turned out badly. Westerners watched helplessly as Middle Easterners arrived by plane, boat, train, bus, car, and foot through the beaches, fields, and railroad stations of Europe. They then witnessed those large numbers bring disease, resist assimilation, impose Islamic laws, engage in crime wave, perpetrate the Cologne *taharrush* (mass sexual assault), and execute jihadi attacks in Paris and Brussels. They uneasily accepted that their societies turned into quasi-surveillance states.

A fundamental shift must take place. International organizations must ramp up expectations and Western governments must apply pressure. Middle Easterners need to take responsibility for their brethren.

Sharing deep cultural ties with their Saudi brothers and sisters, many Afghans will find KSA's severe strictures culturally more congenial than the West. They can rejoice in a law code that (unlike Ireland) permits

polygamy, that (unlike Britain) allows child marriages, that (unlike France) permits burkinis and allows the advocacy of wife-beating, that (unlike the United States) permits slaveholding and female genital mutilation, while going easy on honor killing, and that (unlike all Western countries) engages in official beheadings.

LGBTQ

The Harassment of Professor Kathleen Stock

Kathleen Stock authored the book [*Material Girls: Why Reality Matters for Feminism*](#) and has highlighted the conflict between women's sex-based rights and transgender activism, for which she has been labelled "transphobic," "anti-intellectual," "anti-feminist," "anti-queer," "harmful," and "dangerous." The letter of demands put forward by the students denounces of Stock for her views and demands that she be sacked for them even though she has stated "personally I am more than happy to use preferred pronouns for colleagues and students and would consider it rude not to." She has also repeatedly argued that transgender people are deserving of full human rights, freedom from harm, discrimination, and harassment.

Birdwatching is Racist, Imperialist, and Homophobic

Many birders said that they did not care about the identities of those with whom they watched birds. One such post: "Birds don't see colour, sexual orientation and or hate. That's why we love them so much. They love everyone and perhaps we could learn a thing or two from them." Another, "I never ask any one what their sexual orientation might be. I don't care. I

usually bird alone anyway." And another, "I treat [LGBT people] the same as everyone else on my bird walks. I am wondering if this is actually a thing, or a problem where none exists ... Organized bird walks bring out an assortment of folks. Seems from my experience everyone is busy looking for birds, and not interested in who is what ... It was about the birds, and only the birds. Love to all, and happy birding."

Leftism Is the True Pandemic

We need to recognize that Communism advances on many fronts and, as noted, under various denominations, in its effort to revive Marx's dream of global hegemony. Of course, the situation "on the ground" has changed since Marx's day. Its new watchword may well be: *Oligarchs of the World, Unite!* But we should make no mistake about this. Leftism is a super-spreader. It is COVID by another name. It is a thought-virus with real-world consequences. It is the true pandemic.

WE REMEMBER

Lars Vilks - Free Speech Advocate

Lars Vilks was placed under police protection because of multiple threats to his life arising from a cartoon of Mohammed. He died at the age of 75 on October 3 in a car crash near Markaryd, a settlement in southern Sweden. It was an abrupt end to the life of a man who portrayed himself as a defender of artistic and political freedom of expression, a nonconformist who, in his own eyes, challenged the taboos of Islam and the groupthink of modern Swedish society when others kept silent.

He never retracted or groveled or apologized to Islam. In the fall of 2007, at the height of the initial controversy over "The Prophet as a Roundabout Dog", someone asked Mr. Vilks if drawing the cartoon was worth dying for. In reply he said simply, "Yes, it is." That's what makes him a hero.

Rest in peace Lars Vilks.
